

KNOTTE

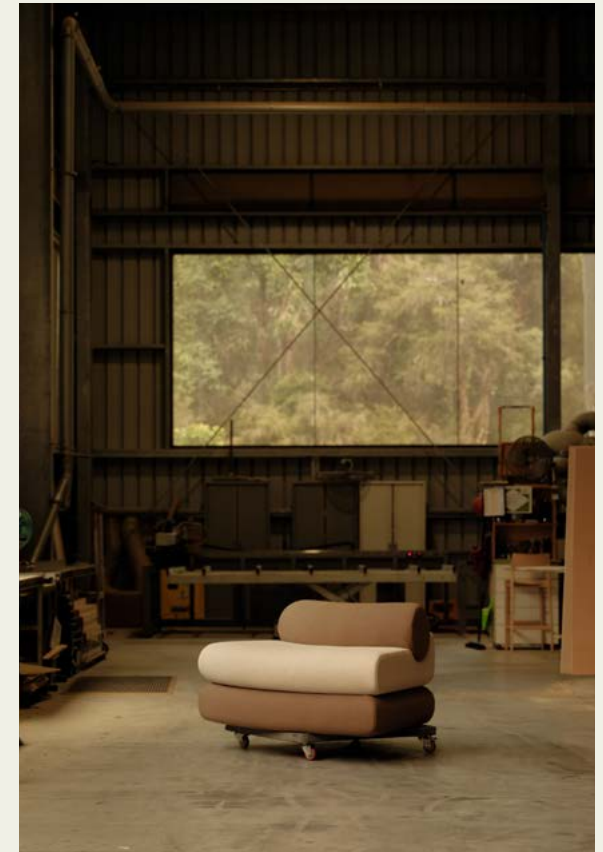

SPACE FOR CONVERSATIONS AND IDEAS
MODULAR LOUNGES, CRAFTED IN SYDNEY

KNOTTE

OUR STORY

Knotte create the space where conversations are shared and ideas are sparked. Knotte modular lounges are designed to bring a sense of calm and connection to the spaces they sit in. Crafted without compromise in our Sydney factory, they invite people to take a moment to sit, reflect and connect before going on their way. Knotte was born out of a desire to bring comfortable, design-led lounges to shared spaces. Part of the Burgtec family, Knotte benefits from over 40 years' experience designing and manufacturing commercial furniture here in Australia.

ALMAS CURVED CONCAVE + CURVED CONVEX IN UNIFORM MELANGE 553 BY KVADRAT.

With endless configurations to suit any space and an extensive library of durable and comfortable fabrics, Knotte collections suit projects of all scales and styles, and customisation is standard. Combining timeless design and robust durability, Knotte elevates design-led interiors while withstanding considerable use in commercial spaces.

Continuing our dedication to pioneering cutting-edge products for future-thinking workplaces, we are local first, giving our customers and clients quicker lead times, better prices and true sustainability, without compromising on quality.

COMMITMENT AND RESPONSIBILITY

At Knotte, we make sustainability part of our process in an effort to reduce the impact of our products on the environment. We do this by staying local, designing and making products that last, and working with like-minded partners who share our values.

Lasting design starts with responsible collaboration. As a proud Australian manufacturer, Knotte partners with industry leaders like Global GreenTag, Supply Nation and AFRDI to champion sustainable manufacturing, support diverse supply chains, and deliver long-term solutions that minimise waste and resources.

GUARANTEED

At Knotte, we craft lounges to last a lifetime. Our products are designed with care, built locally, and backed with confidence. Every lounge comes with a 10-year warranty that covers manufacturing defects, including repairs to upholstery, frames, and foam, as well as all associated logistics.

But we don't stop there. Our commitment to sustainability and longevity is embodied in the Knotte Life Extension Program – an opt-in service designed to extend the life of your lounge well beyond the original warranty period. At any point within the first 10 years, clients can request their lounge be fully refurbished for a fixed fee. This includes return collection, new fabric selection, structural inspection and repair, and reupholstery – followed by delivery and a renewed 10-year certification.

By investing in one of our lounges, you're choosing a product that is not only made to endure, but one we stand by indefinitely. It's our way of offering true value, reducing waste and setting a new standard for sustainable design in commercial environments.

10 year warranty, as standard.

Covers manufacturing defects, including repairs to upholstery, frames, and foam, as well as all associated logistics.

Knotte Life Extension Program, opt in.

Our in-house service that refurbishes, re-certifies and returns your lounge to as-new condition.

COLLABORATION

We partner with global designers of all kinds to explore the endless possibilities of soft seating. This enables unexpected designers to explore design outside of their usual discipline, further their skills, and break the furniture-making mould with their fresh ideas. Broadening our horizons and supporting Australian design, it's an approach that benefits everyone.

ON PARTNERSHIP
BY JOANNE ODISHO

The opportunity to collaborate with Burgtec on a new product was an extremely exciting prospect. As a recent graduate of the Design Institute of Australia, it was an incredible chance to contribute meaningfully to a commercial project—something I had only dreamed of.

Throughout the experience, I was supported by the team who truly believed in me as an emerging designer and trusted my vision from the beginning.

The process wasn't about adjusting the design to fit manufacturing limitations—it was about adapting manufacturing processes to honour the design without compromise. This mindset made the experience especially empowering and creatively fulfilling, and the outcome was beyond my imagination.

Seeing the final product—true to the original concept and refined through collaboration—was both surreal and deeply rewarding. It marked a pivotal moment in my journey as a designer.

JONES STANDARD BACK 1-SEATER STRAIGHT IN AUTUMN 771 BY KVADRAT.

START CREATING

Knotte has a select range of house designs available in a variety of configurations and fabrics. We welcome the customisation of our systems through materials and accessories and delight in sharing the creative process.

This publication is updated regularly by our design consultants. Alongside our website, it acts as a library of sorts. Browse our full collection, all modules and materials and let your creative juices flow.

Modules

Part of all our collections and designed for flexibility and ease of configuration, Knotte modules work together to create soft seating arrangements of all shapes and sizes. Refined yet robust, they are designed to withstand high-frequency areas, with lifetime warranties on all modules. Our generous repair schemes and commitment to quality means a Knotte lounge is an investment for life.

Materials

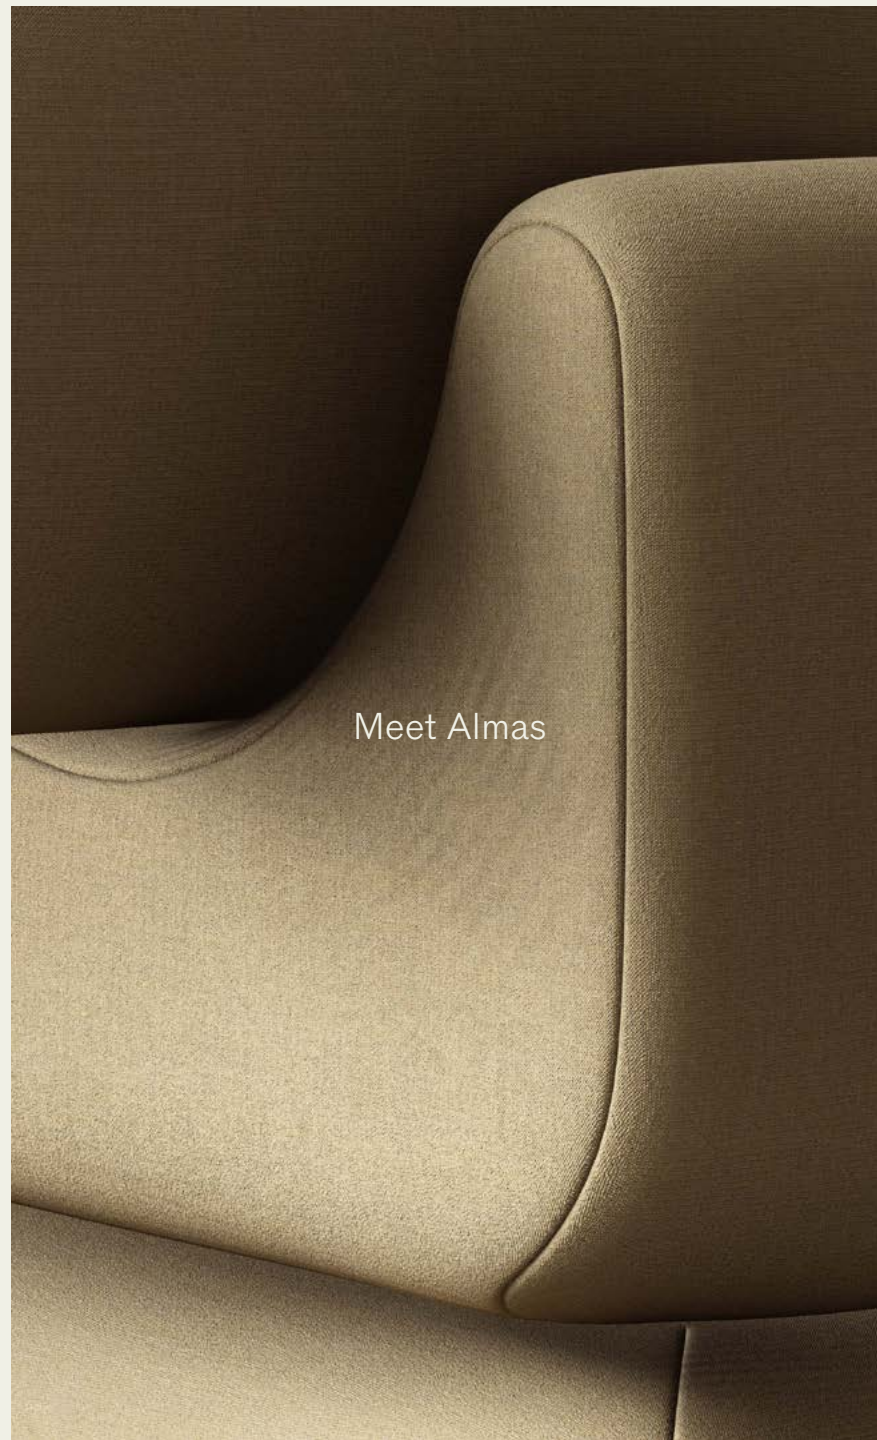

Knotte fabrics are durable, high-quality and naturally fit for purpose, while remaining supremely soft to the touch. In partnership with Australian-and-international textile houses, we have a curated range of core house fabrics for ease of decision making and pricing. You are also welcome to peruse our extensive fabric library alone or with the help of a design consultant.

TO LAST A LIFETIME AND BEYOND

Meet Almas

ALMAS

A modular sofa that brings warmth, connection and versatility into any space.

Named after the designer's grandmother, the Almas modular sofa blends mid-century charm with modern adaptability. With its soft curves and sculptural bolster backrest, it's made for conversation, comfort and connection – at home or in shared spaces. Almas is seating that expands with you, just like the gatherings it honours.

Joanne Odisho is a Melbourne-based designer known for her sculptural and functional objects. A graduate of the furniture design program at RMIT, Jo draws inspiration from a range of sources, including family, architecture and nature. Known for her small tables and lighting, her first range, Almas, is named after her grandmother. With an innate awareness of design, Jo was able to switch from objects to furniture naturally and working closely with Knotte, this is her first range of commercial furniture.

ALMAS MODULES

Modular versatility

Choose from a wide range of straight, curved, corner and ottoman modules to create endless configurations that suit any space—residential or commercial.

Sculptural bolster backrest

The intersecting cylindrical bolster enhances the sofa's soft curves, offering both ergonomic support and a fluid, architectural silhouette.

Tailored to your space

With a curated palette of specialty fabrics, Almas is fully customisable to suit any interior aesthetic, brand identity, or design vision.
